Action Ref	**Action**	**Owner**	**Due Date**	**Update**	**Status**
SECP88/02	The DCC to take on the Panel members' (ST) suggestion that the DCC considers and finds an enduring solution for meters which have not reached their economic end of life.	DCC	14/05/2021	This is still under investigation, as the meter responsibility is not within the DCC's remit. It may be that it is not possible for the DCC to find an enduring solution for meters which have not reached their economic end of life, as the contracts are directly with the Service Users. The DCC still has to get confirmation from its contract team.	**Open**
SECP88/05	SECAS to investigate whether MDD changes cause any potential impacts on SEC.	SECAS	14/05/2021	A meeting was held on 1 March with EUK to clarify the issue and identify potential resolution, and a further meeting will take place to identify possible solutions and the governance route they will take. SECAS will provide a further update in May following the second meeting.	**Open**
SECP88/08	SECAS to issue comms to Users explaining the implementation approach of SECMP0007, including information about when services will become available.	SECAS	12/02/2021	These comms were finalised after the March Panel meeting to take into account the Panel discussions on the DCC's update for the SECM0007 implementation approach. They have now been issued to Users.	**Propose to close**
SECP88/09	SECAS to return to the February Panel meeting with a further update on SECMP0007, including validation of the implementation plan.	SECAS	12/02/2021	The DCC provided a further update at the March meeting.	**Propose to close**
SECP88/11	The DCC to bring an update on DSP Re-procurement to the March Panel meeting.	DCC	12/03/2021	The DCC provided a further update at the March meeting. SECAS will circulate the DSP Workstream Plan when available. This action has been superseded by SECP90/02.	**Propose to close**
SECP89/01	SECAS to investigate MWHHS Data Privacy Options 2 & 3, including requesting that DCC carries out a Preliminary Assessment on Option 3, and seek the views of potential MDR providers in relation to Option 2.	SECAS	16/04/2021	SECAS is currently drafting the Business Requirements for a potential solution to take to the TABASC, and subsequently get the Preliminary Assessment process initiated. SECAS will provide an update on this at the April Panel meeting.	**Propose to close**
SECP89/02	A Panel member (AP) to relay the Panel's discussion on MWHHS Data Privacy options back to MDRs to seek their feedback, which SECAS will then incorporate into its testing.	Panel	16/04/2021	SECAS is engaging with the Panel member and potential MDR Parties to seek feedback on the approach towards Data Privacy for the MDR User Role. SECAS will provide an update on this at the April Panel meeting.	**Open**
SECP89/03	Ofgem to confirm whether there is a deadline by which to agree the MWHHS Data Privacy arrangements.	Ofgem	14/05/2021	Ofgem have confirmed that this information will be included in the next Ofgem update at the May Panel meeting.	**Open**
SECP89/05	Ofgem (MWa) to take the Panel's suggestion of sharing the unedited report which the Panel Chair, before the redacted version is shared with the Panel, back to its legal advisors	Ofgem	12/03/2021	Ofgem assures the Panel that it will work with the Panel and Panel Chair to ensure that they receive value from the report.	**Propose to close**
SECP89/08	The Strategic Working Group to provide an update on its activities to the Panel for review in twelve months.	SWG	11/03/2022	This item is due in March 2022.	**Open**

SECP89/09	The DCC to provide more visibility around prepayment success rates across a wider range of users in its reporting.	DCC	12/03/2021	The DCC provided this data in the March Panel slide deck, and will ensure this is incorporated into the DCC Update slides going forward.	**Propose to close**
SECP90/01	The Panel to send SECAS (AL) any points for inclusion in the Panel response to Ofgem's consultation on a review of DCC licence arrangements by Friday 19 March.	Panel	16/04/2021	Comments from Panel members were received and a response was issued to Ofgem	**Propose to Close**
SECP90/02	SECAS (AL) to circulate the DSP Workstream Plan to Panel members when available, and then provide a further update at the April Panel meeting.	SECAS	16/04/2021	The DCC are presenting an update on the DSP workstream at the Panel in April. This will include a timetable of engagement and wider project plan	**Propose to Close**
SECP90/03	SECAS (AL) to circulate the Comms Hubs and Networks Plan to Panel members when available, and then provide a further update at the April Panel meeting.	SECAS	16/04/2021	The DCC are presenting an overview of the CHs and Network workstream to the Panel in April. A consultation has also been issued regarding the workstreams timetable	**Propose to Close**
SECP90/04	SECAS (AL) to write to BEIS on behalf of the Panel regarding the delay of the Comms Hubs and Networks Evolution Engagement Plan to see if BEIS can instruct the DCC to progress this faster.	SECAS	16/04/2021	A letter was issued on behalf of the Panel to the DCC. It was copied to Panel members, BEIS and Ofgem.	**Propose to Close**
SECP90/05	SECAS (PT) to engage with the key contacts regarding the SoLR Recommendations, as advised by a Panel member (KL).	SECAS	16/04/2021	SECAS is reaching out to the suggested contacts.	**Open**
SECP90/06	SECAS (PT) to consider GBCS alerts alongside pre-payment Devices under the revised SoLR recommendations.	SECAS	16/04/2021	Delivery of alerts destined for the failed Supplier has been added to the business requirements for the technical solution. The legal text has been drafted and discussed with the lawyers to confirm that any activities required to address their alerts will not be inadvertently prohibited, and they have confirmed that this is fine.	**Propose to close**
SECP90/07	SECAS to look into providing a Credit Cover Q&A webinar.	SECAS	16/04/2021	A Credit Cover Q&A webinar will be held once the Modification (MP095) has been implemented. In the meantime, Credit Cover guidance will be provided for SEC Parties which was presented to the Panel in March. The guidance will also include a worked example to help Parties understand the calculation, and will be publicised via the newsletter, website and upcoming engagement calls. SECAS will invite questions from Parties to identify improvements and inform the webinar content to be developed with the DCC.	**Open**
SECP90/08	SECAS to prepare a more detailed assessment of the reasons why the agreed implementation date for MP077 needs to be moved, and to seek Panel agreement ex-committee if required.	SECAS	16/04/2021	SECAS has engaged with Parties to better understands the reasons, benefits and implications of moving the MP077 implementation date. SECAS will present the outcomes of this at the April meeting.	**Propose to close**
SECP90/09	The DCC to investigate whether it is possible for the DCC to build the functionality of the change but to also include a mechanism for suppressing it until the approach has been agreed.	DCC	16/04/2021	The DCC has confirmed it can build the functionality for MP077 and include a mechanism for suppressing it until the implementation approach has been agreed. There will be no additional implementation costs should the functionality be deferred to the June 2022 SEC Release.	**Propose to close**
