MP144 'Charging of Random Sample Privacy Assessments'

Modification Report Consultation responses

About this document

This document contains the full collated responses received to the MP144 Modification Report Consultation.

Summary of responses

Question 1: Do you believe that MP144 should be approved?

Question 1				
Respondent	**Category**	**Response**	**Rationale**	**SECAS Response**
Drax Group	Small Supplier	Approve	When the current arrangements were written into the SEC, the costs socialised for Random Sample Privacy Assessments (RSPAs) were minimal. However, as the rollout has accelerated, the number of RSPAs undertaken by Other Users has increased and will continue to do so. It's right that these costs are allocated fairly and RSPAs are brought into line with other privacy assessments which are paid for by the User undertaking the assessment.	-
Wester Power Distribution	Electricity Network Party	Approve	We believe that this modification better facilitates SEC Objective (g) by facilitating the efficient and transparent administration and implementation of the SEC.	-
Electricity North West Limited	Electricity Network Party	Approve	We agree with the Refinement Consultation respondents who solution cited General SEC Objective (g) as being improved on the grounds of making the administration and implementation of the SEC more transparent to ensuring consistency for the costing methodology among all of the User Privacy Assessments.	-

Question 2: Please provide any further comments you may have

Question 2			
Respondent	**Category**	**Comments**	**SECAS Response**
Drax Group	Small Supplier	We have no further comments.	-
Wester Power Distribution	Electricity Network Party	-	-
Electricity North West Limited	Electricity Network Party	The proposed solution will bring RSPAs in line with the other privacy assessment types so that they are all paid by the individual User, rather than as a socialised cost across industry.	-
