SEC Modification Progression – August 2022

1. Purpose

This paper sets out the new Draft Proposals raised in the last month and the modifications ready to move to the next stage of the framework, and our recommendations to the Change Sub-Committee (CSC) on how each should be taken forward.

2. Recommendations

This table lists our recommendations for each modification.

Full details of each modification can be found in the attached Modification Reports.

2.1 Recommended for approval as a Fast-Track Modification

Proposal	Recommendations
DP212 'Housekeeping changes 2022'	AGREE the issue and the impact it is having is clearly defined and understood AGREE that DP212 should be converted to a Modification Proposal AGREE that MP212 should be progressed and approved as a Fast-Track Modification (<i>the CSC must be unanimous for this to be passed</i>) APPROVE the Modification Report APPROVE the implementation approach

We recommend that MP212 is progressed and approved as a Fast Track Modification. This change is proposing to correct minor errors and inconsistencies with the SEC, and we believe this meets the criteria in SEC Section D2.8 to be a Fast Track Modification.

The CSC must be unanimous to progress and approve a modification as a Fast Track Modification. Parties will then have a 15 Working Day period in which they can object to the CSC's decision. If no objections are received, the CSC's approval of the change will be final.
