MP259 ‘Triage System Interface Definition’

Modification Report Consultation responses

About this document

This document contains the full collated responses received to the MP259 Modification Report Consultation.

Summary of responses

Question 1: Do you believe that MP259 should be approved or rejected?

Question 1			
Respondent	Category	Response	Rationale
British Gas	Large Supplier	Approve	It seems sensible and appropriate. Agree it better facilitates General SEC Objective (f).
National Grid Electricity Distribution	Networks Party	Approve	-
Northern Powergrid Metering Limited	Other SEC Party	Approve	The introduction of TLS will see more manufacturers bring usable triage functionality to the market, this will lead to a reduction in costs and waste for the industry collectively. Northern Powergrid Metering Limited believe that this modification will help better facilitate SEC Objective F by ensuring that more acceptable security procedures are in place to allow for device triage.

Question 2: Please provide any further comments you may have.

Question 2		
Respondent	Category	Comments
British Gas	Large Supplier	-
National Grid Electricity Distribution	Network Parties	-
Northern Powergrid Metering Limited	Other SEC Parties	-
