Objective (g)²

The Change Board believed that MP303 will better facilitate SEC Objective (g)

Change Board discussions

One Large Supplier noted that the Change Board need to be mindful that processes not in line with existing SEC Documents need to be thoroughly investigated so as to ensure that the SEC is not being updated in place of potentially incorrect processes. They acknowledged that the SMKI PMA had been consulted during this modification process and agreed that the DCC processes for DCC Device Certificate Validation are correct. They further agreed that the SEC should be updated to reflect this.

The Chair (AB) agreed with the Change Board member (AH) and stated that the Change Board should always ensure that SEC changes are valid.

² facilitate the efficient and transparent administration and implementation of this Code.
