# MP310 ‘Trial Device Assurance Certificate’

## Annex A

### Legal text – version 1.0

#### About this document

---

This document contains the redlined changes to the SEC that would be required to deliver this Modification Proposal.

## SEC Section F – Smart Metering Systems Requirements

---

These changes have been redlined against SEC Section F version 27.0.

### Amend Section F2.1 as follows:

#### F2. CENTRAL PRODUCTS LIST

##### Central Products List

F2.1 The Panel shall establish and maintain a list (the "Central Products List") of:

- (a) the SMETS2+ Device Models for which the Panel has received all the Assurance Certificates required for the Physical Device Type relevant to that Device Model (known as the Central Products List); and
- (b) in the case of SMETS1 Device Models, those Device Models for which the Panel has received all the information required in accordance with the CPL Requirements Document (which does not require any certification of SMETS1 Devices under the CPA or any other assurance scheme)-;
- (c) in the case of the Trial Device Certificates, may allow an existing Assurance Certificate (other than a CPA Certificate) to be used as allowed in Section F2.19A.

### Amend Section F2.19 as follows:

F2.19 In its application for Trial Device Approval, the applicant Manufacturer must evidence that the SMETS2+ Device Model for which it is seeking approval has all Assurance Certificates other than a CPA Certificate issued by the ~~the~~ CPA Scheme Operator.

F2.19A F2.19 shall apply unless the applicant Manufacturer provides evidence and an explanation as to why a Trial Device is functionally equivalent to an existing Assurance Certificate. The SSC shall consider any explanation from a Manufacturer for an existing Assurance Certificate to be used and, where this explanation is accepted, shall allow an existing Assurance Certificate to be used for the Trial Device.

**Amend Section F2.32 as follows:**

F2.32 Where a Trial Device Model is removed from the Central Products List, all Devices of the relevant SMETS2+ Device Model must be promptly Decommissioned by the Responsible Supplier, unless:

- (a) the relevant SMETS2+ Device Model has since gained a CPA Certificate (or a new Trial Device Certificate) and where F2.19A has been applied, new Assurance Certificates and has been updated accordingly on the Central Products List; or
- (b) the relevant Device can be (and is) updated via firmware to become a SMETS2+ Device Model which is listed on the Central Products List.
