MP167A ‘Review of SEC documents (Testing Approach Document criteria)’ Conclusions Report – version 0.1

About this document

This document summarises the responses received to the Modification Report Consultation regarding the approval or rejection of this modification.

Summary of conclusions

Modification Report Consultation

The Smart Energy Code Administrator and Secretariat (SECAS) received three responses to the Modification Report Consultation. All respondents believed that the modification should be approved. They considered the modification better facilitated Smart Energy Code (SEC) Objectives (a)¹ and (e)².

¹ Facilitate the efficient provision, installation, operation and interoperability of smart metering systems at energy consumers' premises within Great Britain.

² Facilitate innovation in the design and operation of energy networks to contribute to the delivery of a secure and sustainable supply of energy.

Modification Report Consultation responses

Summary of responses

All three respondents (two Large Suppliers and one Network Party) believed that the modification addresses the issue defined. One respondent, a Network Party, felt that the modification better facilitates SEC Objectives (a) and (e).

Two respondents provided minor clarification comments on the proposed legal text. SECAS has reviewed these comments and amended the legal text accordingly, leading to version 1.1 of the legal text.
