MP210 ‘RSA forecasts, orders and pay stock charges for Alt HAN Equipment’ Conclusions Report – version 0.1

About this document

This document summarises the responses received to the Modification Report Consultation regarding the approval or rejection of this modification.

Summary of conclusions

Modification Report Consultation

The Smart Energy Code Administrator and Secretariat (SECAS) received four responses to the Modification Report Consultation. Three respondents believed that the modification should be approved. They considered the modification better facilitated Smart Energy Code (SEC) Objectives (a)¹, (c)² and (h)³. The fourth respondent abstained.

¹ Facilitate the efficient provision, installation, operation and interoperability of smart metering systems at energy consumers' premises within Great Britain.

² Facilitate energy consumers' management of their use of electricity and gas through the provision of appropriate information via smart metering systems.

³ Facilitate the establishment and operation of the Alternative Home Area Network (Alt HAN) arrangements.

Modification Report Consultation responses

Summary of responses

Three respondents (two Large Suppliers and one Network Party) believed that the modification addresses the issue defined. One respondent, a Large Supplier, stated the modification is an important enabler to ensure all residential consumers that need Alternative Home Area Network (Alt HAN) Equipment to allow for smart functionality, regardless of the size of their Supplier.

The final respondent, the Alt HAN Company, abstained as they believed that the vote was a matter for Relevant Suppliers. They also advised that Alt HAN Co is preparing the necessary contract changes required to give effect to MP210 and the Alt HAN Forum decisions on implementing changes will be contingent on confirmation of the approval of this modification.
