MP227 ‘Pre-SMETS2 v4.2 Device IVP Extension’

Conclusions Report – version 0.1

About this document

This document summarises the responses received to the Modification Report Consultation regarding approval or rejection of this modification.

Summary of conclusions

Modification Report Consultation

SECAS received ten responses to the Modification Report Consultation. All respondents believed that the modification should be approved. They considered the modification better facilitated SEC Objective (a)¹.

¹ Facilitate the efficient provision, installation, and operation, as well as interoperability, of Smart Metering Systems at Energy Consumers' premises within Great Britain.

Modification Report Consultation responses

Summary of responses

All respondents (six Large Suppliers, one Network Party and three Other SEC Parties) agreed that this modification should be approved for implementation as it would prevent the unnecessary scrapping of Devices and avoid the associated financial and environmental costs.
