MP246 ‘DCC User access to metadata via the DCC Self-Service Interface (SSI)’

Conclusions Report – version v1.0

About this document

This document summarises the responses received to the Modification Report Consultation.

Summary of conclusions

Modification Report Consultation

SECAS received four responses to the Modification Report Consultation. All respondents believed that the modification should be approved. They agreed that [MP246 ‘DCC User access to metadata via the DCC Self-Service Interface \(SSI\)’](#) better facilitated SEC Objective (f)¹.

¹ Ensure the protection of data and the security of data and systems in the operation of the SEC.

Modification Report Consultation responses

Summary of responses

Four responses were received to the Modification Report Consultation.

All four respondents (three Large Supplier and one Network Party) agreed MP246 better facilitated SEC Objective (f) as it would ensure the protection of data and the security of data and systems in the operation of the SEC.

Overall, the response to the implementation of this modification was positive with no objections raised in the Modification Report Consultation.
