Set out below is the draft SEC legal text that will deliver the intent of the SECMP0036 proposed solution. The changes have been drafted against SEC Version 5.7¹.

Amend Section H1.5 as follows:

H1.5 A Party wishing to act as a User in one or more User Roles shall propose to the DCC one or more identification numbers, issued to it by the Panel, to be used by that Party when acting in each such User Role. Each such identification number must be EUI-64 Compliant, and the same identification number cannot be used for more than one User Role, save that a Party may use the same identification number when acting in the combined User Roles of either, 'Import Supplier and 'Gas Supplier'; or 'Import Supplier', 'Export Supplier' and 'Gas Supplier'.

¹Note that if a new version of the SEC is designated before the submission of the Final Modification Report to the Change Board or Authority, the drafting will be checked to make sure there are no consequential impacts. Our current understanding is that the specifications that SECMP0036 is amending are not expected to change as part of any forthcoming designations.
