Upcoming		
Future of Gas Transporter Traditional Metering Obligations post-2025	Consultation Future of Gas Transporter Traditional Metering licence conditions which sit in the gas transport special and standard special licence conditions.	Expect October/November

Energy Code Reform

- Following our 2024 joint consultation with DESNZ, we confirmed that code managers will need to:
 - Include performance indicators in their codes, and
 - Publish annual reports on how they're performing against these.
 - We asked Elexon and RECCo to help us develop initial metrics, which we've been refining together. These will inform proposals we plan to consult on in due course.
- To support this, we held a stakeholder workgroup on 23 September to test the draft metrics. Feedback from that session will help us improve them ahead of consultation, where there'll be further opportunity to input.

Publications – Publishing Moratorium

- The last day of publishing this year will be on Friday 12 December.
- Publishing will restart on Monday 5 January 2026.
- The moratorium will affect all publications on ofgem.gov.uk. Publications will only be permitted during the moratorium period when there is a legal or statutory requirement to publish.
