The SMKI PMA will add any necessary clarifications for appropriate PKI purposes

Classification	Definition	Criteria
RED	For the eyes and ears of individual members of the governance group only, no further disclosure. RED information must not be shared with anyone else; information is limited to those individual members of the governance group including alternates (Panel/ Sub-Committee/ Working Group) and direct recipients of the material. All recipients must have signed an NDA stating their acceptance to abide by these terms. Agenda items marked as RED will be discussed in a closed, confidential session and discussions will only be included in minutes marked as RED. Any documentation classified as RED shall be distributed using the agreed secure storage and distribution platforms.	RED Data indicates significant risk for the security, privacy, reputation or operation of organisations involved. RED is the equivalent to DCC Confidential, as defined by Section M4.22 of the SEC. Any DCC Confidential documents which are circulated to the Panel, it's Sub-Committees or Working Groups, will be treated the same as a RED SECAS document. RED-classified information is to be shared with members of the SMKI PMA governance group via the Egress Switch Platform. All RED documents should be shared in a non-editable format (e.g. PDF) unless the author requires direct input into the development of the document. RED material can also be shared with SECCo employees representing SECCo. The documentation should clearly specify SECCo employees as the audience. This excludes Security or Privacy content.
AMBER-STRICT	Limited disclosure, recipients can only distribute this on a strict need-to-know basis within their SEC Party Category to protect and prevent harm. This information can be restricted to a specified, narrower audience in some cases which should be clearly articulated on the document. An example would be anonymised details of a security incident or vulnerability that needs to be communicated on a strict need-to-know basis to enable appropriately qualified security specialists to implement prevention or mitigation actions.	AMBER-STRICT is the equivalent to DCC Controlled, as defined by Section M4.23 of the SEC. Any DCC Controlled documents which are circulated to the Panel, it's Sub-Committees or Working Groups must be marked as AMBER-STRICT if the desired audience is limited to sharing within the SEC Party category and not with third-party stakeholders who are not SEC Parties. The SMKI PMA will use Egress as the principal platform for distributing all AMBER-STRICT information. All AMBER-STRICT documents should be shared in a non-editable format (e.g. PDF) unless the author requires direct input into the development of the document.
AMBER	Limited disclosure, recipients can only distribute this within their SEC Party Category and third-party stakeholders (who have a contractual relationship with that SEC Party) including Trade Associations on a need-to-know basis to protect and prevent harm. Agenda items marked as AMBER or AMBER-STRICT will be discussed in a closed, confidential session and discussions will only be included in the	AMBER applies when information requires support to be effectively acted upon, yet carries risk to security, privacy, reputation, or operations if shared outside of the organisations involved. It can be broadly categorised as information which is restricted to a certain governance group. AMBER documents can be shared beyond the target governance group to those who have a need to know in order to take action and

	Confidential minutes marked as AMBER. Examples of third-party stakeholders include Trade Associations and contracted organisations within the supply chain (such as service providers, vendors, or a third party which has a contractual relationship with a SEC Party).	can only be shared by members within their SEC Party Category and third-party stakeholders such as Trade Associations. AMBER-classified information may be shared with members of the SMKI PMA governance group via the Egress Switch Platform or as an attachment to a secure, encrypted email. All AMBER documents should be shared in a non-editable format (e.g PDF) unless the author requires direct input into the development of the document.
GREEN	Limited disclosure, recipients can distribute this information to SEC Parties and SMIP stakeholders but not made publicly available. GREEN will be the default classification for any discussions unless otherwise notified. In practice, GREEN documentation is stored on the SEC website with password restrictions so SEC Parties can only access the documents after logging in. Agenda items marked as GREEN will be included in the minutes marked as GREEN.	GREEN applies when information is useful to increase awareness with SEC Parties. GREEN Data is information which should be shared for the benefit of SEC Parties but cannot be made completely public. GREEN is the equivalent to DCC Controlled (SEC Parties). Any DCC Controlled (SEC Parties), documents which are circulated to the Panel, it's Sub-Committees or Working Groups, will be treated the same as a GREEN SECAS document. Green-classified information may be shared with SEC Parties via the SEC website restricted to SEC Parties. All GREEN documents should be shared in a non-editable format (e.g PDF) unless the author requires direct input into the development of the document.
CLEAR	Recipients can distribute this information to the world, there is no limit on disclosure. Information may be shared without restriction subject to copyright. Agenda items marked as CLEAR will be included in the Non-Confidential minutes marked as CLEAR.	Sources may use CLEAR when information carries minimal or no foreseeable risk of misuse, in accordance with applicable rules and procedures for public release. CLEAR is the equivalent to DCC Public. Any DCC Public documents which are circulated to the Panel, it's Sub-Committees or Working Groups, will be treated the same as a CLEAR SECAS document.

Information sharing levels will be suggested by participants when providing information and determined by the Chair.

As a SMKI PMA Member, each participant will be asked to undertake in writing to abide by the confidentiality and disclosure provisions in relation to each information sharing level as described

above, by signing the Confidentiality and Disclosure Agreement at Appendix A to these Terms of Reference.

Individuals who the SMKI PMA Chair has invited to attend a meeting of the SMKI PMA will also be asked to sign the Confidentiality and Disclosure Agreement but will only be permitted to attend the SMKI PMA during discussions on agenda items relevant to their organisation or subject matter expertise.

SMKI PMA Members who breach the rules of the confidentiality and disclosure provisions under any information sharing level will have their SMKI PMA membership ceased. The confidentiality and disclosure agreement can be found in Appendix A.
