SECMP0055 Working Group Consultation

1. Purpose

This is the Working Group Consultation for [SECMP0055 'Incorporation of multiple Issue Resolution Proposals into the SEC'](#). We invite you to respond to this consultation in order to help the Proposer and the Working Group in the development of this modification.

The draft Modification Report is included in this consultation pack, along with a response form containing the questions we seek your views on.

This consultation will close at **17:00** on Friday 1 March 2019. The Working Group may not be able to consider late responses.

2. Summary of the proposal

What is the issue?

BEIS has managed a process of assessing issues raised by industry concerning Technical Specifications, including SMETS, GBCS and DUIS. Where necessary, these have resulted in Issue Resolution Proposals (IRPs) that typically clarify, correct or align the Technical Specifications to current practice. Responsibility for implementing IRPs is passing from transitional governance to SEC governance.

What is the Proposed Solution?

The proposed solution is to consider each of the candidate IRPs for inclusion in this Modification Proposal. Individual IRPs may be considered for a subsequent modification if consequences that were unforeseen during the development of the IRP are identified during the refinement of this modification.

Will I be impacted?

SECMP0055 is expected not to impact any SEC Parties.

Full details of how this modification may impact you can be found in the Modification Report.

3. Contact

If you have any questions on this modification, please contact **Harry Jones** on 020 7081 3345 or email sec.change@gemserv.com.
