

SMETS1 Testing Governance Update

- Following last months presentation, which included the plan for IOC SIT completion governance activities, the plan has been revised to remove the overlap of IOC SIT and IOC UTS. This overlap removal has been actioned through the finalisation of the revised LC-13 plan
- The result is that the IOC UTS commencement date has been moved to accommodate completion of IOC SIT completion governance activities
- Plan is still tight and assume IOC SIT completes by late Feb (22/02), to enable internal DCC governance to complete by 1 March to then enable TAG and Panel activities to occur
- The period between IOC SIT Completion and formal IOC UTS (ET) commencement, will be used to undertaken any UTS 'shakedown' activities

SIT > UTS STEPS

Recent activities and forth coming activities

- TAG undertook it's initial review of the IOC SIT completion report structure on 30 January 2019
 - feedback being actioned by the DCC, with revised versions shared in between TAG Meetings
- Further review on structure and completed content so far on 28 February 2019
- The additional 6 March TAG meeting will then be used to cover any updates to the Completion Report, following the completion of DCC testing governance and recommendation to Panel on 6 March 2019
- TAG IOC SIT completion recommendation paper due to be brought to 15 March Panel (report to be issued as normal 5 Working Days in advance, on the 8 March)

Other forthcoming activities

- SMETS1 Live Services Criteria
 - TAG is expecting to receive a briefing session on the testing aspects of the SMETS1 Live Services Criteria (LSC) on 27 February
 - Similar briefing sessions will go to the Operations Group, covering the operational aspects of the LSC
 - LSC documentation then expected at 27 March TAG meeting before being brought to the Panel
- MOC forward planning and associated updates at February and March meetings
- May be a need for additional TAG sessions to cover UTS completion activities in advance of Live Services Criteria activities in early to mid April, if so the Panel will be advised accordingly
