# SECMP0070 ‘Permission to give Alt HAN Forum vires for enduring management and maintenance of the Exempt Premises List (EPL)’ Modification Report Consultation responses

## About this document

This document contains the full collated responses received to the SECMP0070 Modification Report Consultation.

## Summary of responses

## Question 1: Do you believe that SECMP0070 should be approved?

Question 1			
Respondent	Category	Response	Rationale
EDF Energy	Large Supplier	Approve	We agree that SECMP0070 better achieves SEC Objective (h) as it enables the most process for managing the Exempt Premises List as well as aligning the vires of the Alt HAN Forum with the original policy intent.
E.ON UK	Large Supplier	Approve	E.ON supports the approval of this modification as it agrees with the proposer's argument that this provides clarity in the regulatory framework for the management of the Exempt Premises List, meaning that this activity can proceed in line with the timescales for Alternative HAN and without the risk of future challenge. As noted in the modification report, this also reflects the intent of the arrangements put in place by BEIS.
British Gas	Large Supplier	Approve	We agree with the proposer that implementation of SECMP0070 will better facilitate SEC Objective (h) as it provides a clearer regulatory framework for the management of Exempt Premises List by Alt HAN Forum consistent with licence obligations. The proposed legal text amendments provide the clarity, by adding EPL management to the scope of Forum Functions, that Alt HAN Co have the vires to manage and maintain the EPL on behalf of suppliers.
npower	Large Supplier	Yes	This Mod will clarify that responsibility for the enduring management and updating of the Exempt Premises List on behalf of suppliers sits with the Alt HAN Forum. This is in our view an efficient use of industry resources
First Utility	Large Supplier	Approve	It makes sense to give Alt Han Co the vires through the activities of the Alt Han Forum to maintain the Exempt Premises List (EPL). The approval of this modification provides more clarity allowing Alt Han Co to trace the authority through industry code and Supply Licence for maintaining the EPL.

Administered by

Question 1			
Respondent	Category	Response	Rationale
			This modification proposal better facilitates SEC General Objective h) in that it better facilitates the operation of the Alt Han Arrangements.
<b>Smartest Energy</b>	Small Supplier	Approve	This modification will better facilitate SEC Objective (h) as it allows the opportunity for more informed changes and maintenance to be made to the Exempt Premises List.

## Question 2: Please provide any further comments you may have
