Smart Landscape Releases plan-on-a-page

1. Purpose

This document is intended to present an overview of future changes to the SEC, in particular the technical documentation, and provide information on the different elements of each release, which documents they will affect and when they will be implemented. The aim of the plan-on-a-page is to encompass all the critical information on changes to the SEC on one page, to allow Parties to see how multiple changes interact. This plan is designed to be ongoing and will be updated on a regular basis when new information is provided.

We seek the Panel's initial comments on our draft plan-on-a-page. We will also be engaging with the Technical Architecture and Business Architecture Sub-Committee (TABASC) and the Operations Group, at their upcoming meetings to obtain their input on this. Once we have updated the plan to incorporate the comments we receive, we will publish it on our website.

2. Recommendations

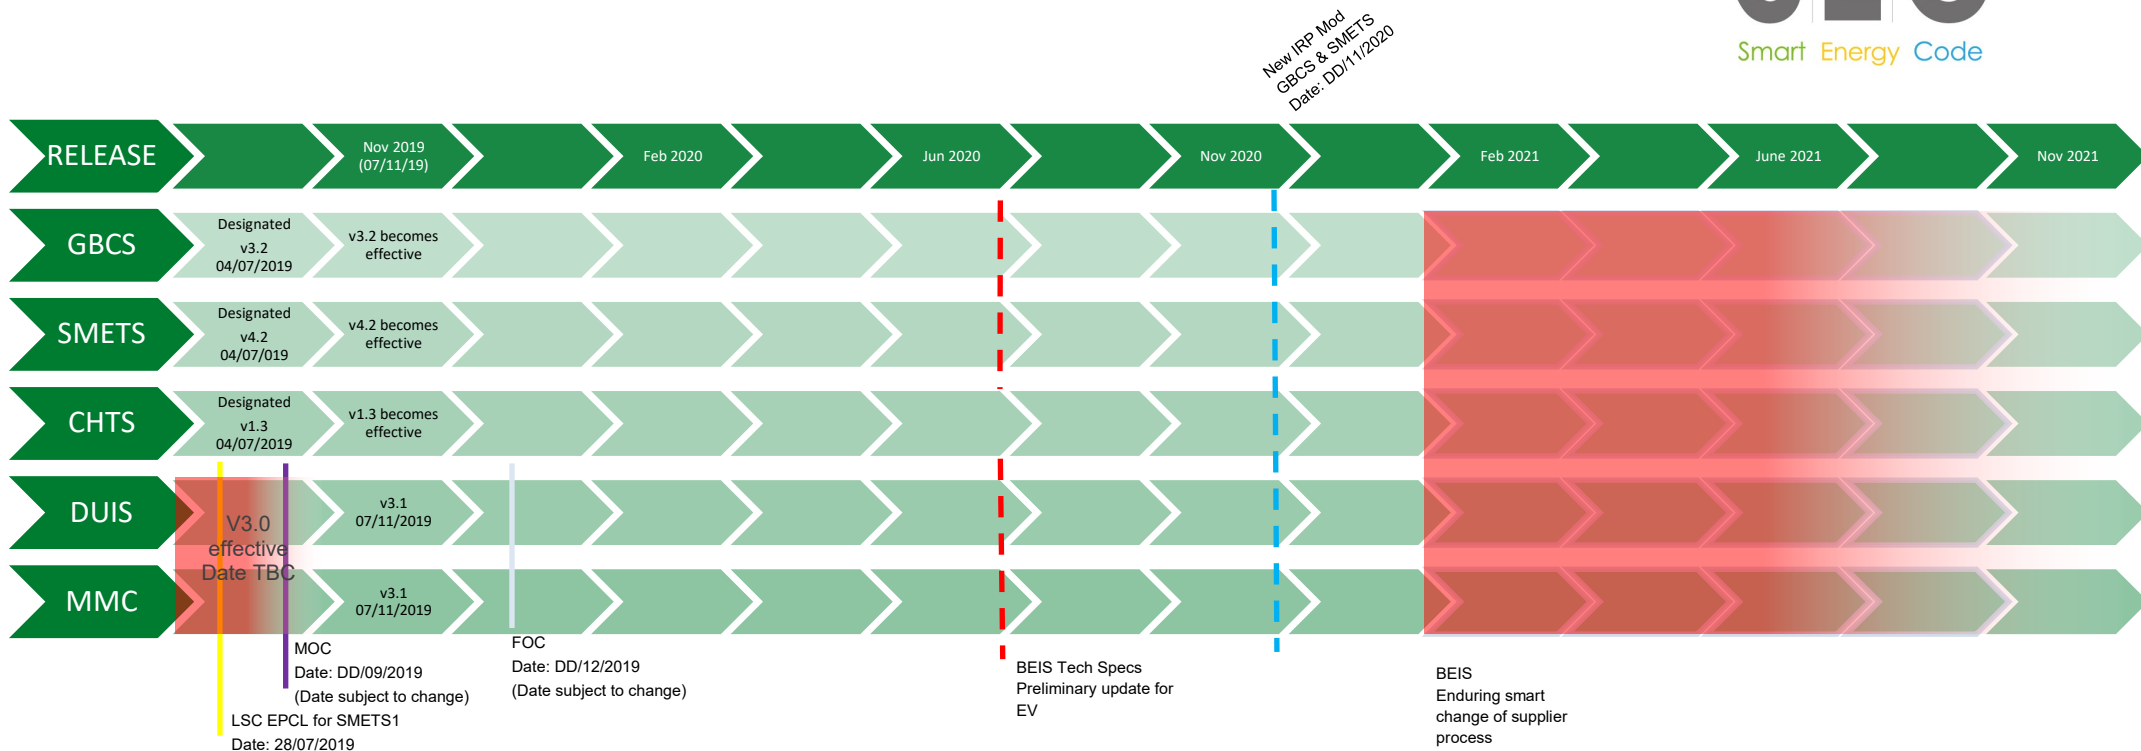

The Panel is requested to:

- **PROVIDE** any comments on the draft plan-on-a-page; and
- **CONSIDER** if this layout is suitable to clearly present the landscape for future changes.
