## New Draft Proposals

### 1. Purpose

This paper provides a summary of all the new Draft Proposals raised since the last Change Sub-Committee (CSC) meeting. We will verbally update the CSC on any further Draft Proposals that are raised prior to the meeting. We invite members to provide any views and comments on this Draft Proposal at this initial stage, which will help us in our assessment of the associated problem statement.

### 2. New Draft Proposal

#### [DP079 'Provisions for withdrawing modifications'](#)

DP079 has been raised by Simon Trivella of British Gas. The Lead Analyst from SECAS is Bradley Baker.

Within SEC Section D 'Modifications Process' the provisions are built around the key principle that any SEC Party can raise a proposal to change the SEC, and that each proposal should undergo due process for a solution to be developed and for this to be determined upon. As such, SECAS and the Panel must allow any proposal into the process and ensure it receives a fair assessment.

There are provisions within the SEC for the Proposer to withdraw their proposal prior to decision, if they no longer wish to progress it (for example it is identified that the issue can be resolved without a change to the SEC, or if it is clear the proposal is not likely to succeed). However, this power is limited to the Proposer; neither SECAS, the Panel nor their Sub-Committees can close a modification prior to decision. The Proposer wishes to explore if these provisions should be changed.

The draft problem statement containing the information provided by the Proposer can be found in Appendix A. This problem statement will be updated as we investigate the issue further during the Development Stage.

### 3. Recommendations

The CSC are requested to **PROVIDE** any initial views and comments on this new Draft Proposal.
