SEC Modification timetables

1. Purpose

This paper provides an update on the timetables for Modification Proposals currently in the Refinement Process. The timelines here cover the next main programme of work for selected open modifications, and the due date this is expected to be completed by. At that point, the Panel will be provided with an update on progress and be invited to approve the next programme of work for that proposal.

The Panel is invited to agree the programmes of work and timelines in this paper.

2. Work packages and timelines

Table 1 provides updates on the next programme of work for the proposals we are due to inform the Panel on. We seek the Panel's approval of these.

Table 2 provides an overview of the current programmes of work for all proposals currently in the Refinement Process.

3. Recommendations

The Panel is requested to **AGREE** the packages of work and the progression timetables outlined in this paper.
