# MP086 'Alt HAN Roll-Out Financing' Modification Report Consultation responses

#### About this document

This document contains the full collated responses received to the MP086 Modification Report Consultation.

### **Summary of responses**

## Question 1: Do you believe that MP086 should be approved?

| Question 1          |                  |          |   |
|---------------------|------------------|----------|---|
| Respondent          | Category         | Response | Rationale   |
| EDF Energy          | Large Supplier   | Approve  | We agree that MP086 will be better facilitate SEC Objective (h) as it will help to enable Alt HAN to be able to be financed more effectively and efficiently than under the current arrangements.   |
| E.ON                | Large Supplier   | Approve  | We agree wholeheartedly with the proposer that this modification is vital to Alt HAN Co. being able to access roll-out financing, based on the indications from finance providers as part of the market engagement exercise performed by Alt HAN Co. As such, it facilitates the delivery of the eighth SEC Objective. The ability to pay for Alt HAN services in line with the timescales where benefits are realised is reasonable, and given the changes in market share which are occurring as a result of customer switching it is equitable to ensure that costs are spread over a long term period so that they can be paid by suppliers receiving those benefits. As a result, this modification proposal aligns with the fourth SEC objective. |
| Shell Energy Retail | Large Supplier   | Approve  | We agree with the conclusions set out in the modification report consultation and believe this proposal better facilitates SEC Objective (h) in that it ensures Alt Han Co can facilitate financing of the roll-out arrangements in a more economic and efficient manner for Energy Suppliers.  |
| DCC                 | Other Respondent | Approve  | The Mod should be approved as it supports the eighth General SEC Objective, to facilitate the establishment and operation of the Alt HAN Arrangements. It does so through facilitating financing of the Alt Han roll-out in a more economic and efficient manner.   |

## Question 2: Please provide any further comments you may have

| Question 2          |                  |   |  |
|---------------------|------------------|---|--|
| Respondent          | Category         | Comments  |  |
| EDF Energy          | Large Supplier   |   |  |
| E.ON                | Large Supplier   |   |  |
| Shell Energy Retail | Large Supplier   | N/A   |  |
| DCC                 | Other Respondent | DCC are happy that the proposed legal drafting delivers the proposed solution. However, it should be noted, the typo in clause Z4.19, capitalised Alt not capitalised:  The Board shall, promptly upon its approval by the Forum, provide the DCC with a copy of the Approved Alt HAN Budget and any Approved alt HAN Financing Budget, together (in each case) with such supporting information as may reasonably be requested by the DCC. |  |
