MP093 ‘Implementing IRP511 and CRP535 to support GBCS v3.2 devices’ Conclusions Report – version 1.0

About this document

This document summarises the responses received to the Modification Report Consultation and the decision of the Change Board regarding approval or rejection of this modification.

Summary of conclusions

Change Board

The Change Board voted to **approve** MP093 under Self-Governance. It believed the modification better facilitates SEC Objective (a).

Modification Report Consultation

Three responses were received to the Modification Report Consultation. All respondents believe the modification should be approved. They agreed that the modification better facilitated SEC Objective (a).

Modification Report Consultation responses

Summary of responses

There were three responses to the Modification Report Consultation. The respondents (three large Suppliers) voted to approve the Modification Proposal. The respondents all noted the implementation of the modification better facilitates SEC Objective (a)¹. Two respondents noted approval of the modification would enable the Device functionality changes made as part of the November 2019 SEC Release to be fully realised. The other respondent added that the modification will enable them to leverage functionality that is already in place, whilst facilitating the management of redundant Devices on the Communications Hubs that they are responsible for.

¹ Facilitate the efficient provision, installation, operation and interoperability of smart metering systems at energy consumers' premises within Great Britain.

Change Board vote

Change Board vote

The Change Board voted to **approve** MP093 under Self-Governance.

The vote breakdown is summarised below.

Change Board vote				
Party Category	Approve	Reject	Abstain	Outcome
Large Suppliers	5	0	0	Approve
Small Suppliers	2	0	0	Approve
Network Parties	3	0	0	Approve
Other SEC Parties	3	0	0	Approve
Consumer Representative	0	0	0	-
Overall outcome:				APPROVE

Views against the General SEC Objectives

Objective (a)²

The Change Board unanimously believed that MP093 would better facilitate SEC Objective (a) as it would allow Suppliers to use the full functionality implemented in the November 2019 SEC Release.

Change Board discussions

There were no other comments.

² Facilitate the efficient provision, installation, operation and interoperability of smart metering systems at energy consumers' premises within Great Britain
