Conclusions Report – version 0.1

About this document

This document summarises the responses received to the Modification Report Consultation.

Summary of conclusions

Modification Report Consultation

SECAS received four responses to the Modification Report Consultation. All respondents believed the modification should be approved. They considered the modification better facilitates SEC Objectives (f)¹ and (g)².

¹ To ensure the protection of Data and the security of Data and Systems in the operation of this Code.

² To facilitate the efficient and transparent administration and implementation of this Code.

Modification Report Consultation responses

Summary of responses

Three Large Suppliers and one Network Party responded to the consultation. All respondents agreed that this modification would ensure the efficient implementation of the Code. They also agreed this modification would provide Parties with the most up-to-date guidance relating to the protection of Data and the security of Data and Systems when operating under the Code.

One respondent advised that without this change, it is likely that misalignments will occur between the SEC and the amended guidance.
