Headlines of the Security Sub-Committee (SSC) 101_2705

At every meeting, the SSC review the outcome for Users' Security Assessments and sets an Assurance status for Initial Full User Security Assessments (FUSAs) or a Compliance status for Verification User Security Assessments (VUSAs) and subsequent FUSAs. The SSC also reviews outstanding actions, monitors the risks to the Commercial Product Assurance (CPA) certification of Devices, considers available updates from the DCC on SMETS1 enrolment and Anomaly Detection and any reported changes in Shared Resource Providers by Users and reported Security Incidents and Vulnerabilities.

The SSC reviewed the following which are classified as **RED** and therefore recorded in the Confidential Meeting Minutes:

- Set an assurance status for two initial FUSAs;
- Set a compliance status for one second or subsequent FUSA;
- Set an assurance status for one Follow-Up Assessment; and
- Noted one Security Self-Assessment (SSA).

The SSC also discussed the following items:
