MP101 ‘Large Gas Meter Displays’ Conclusions Report

About this document

This document summarises the responses received to the Modification Report Consultation and the decision of the Change Board regarding approval or rejection of this modification.

Summary of conclusions

Change Board

The Change Board voted to **approve** MP101. It believed the modification better facilitated SEC Objectives (a)¹ and (g)².

Modification Report Consultation

SECAS received one response to the Modification Report Consultation. The respondent believed the modification should be approved. They considered the modification better facilitated SEC Objectives (a) and (g).

¹ Facilitate the efficient provision, installation, and operation, as well as interoperability, of Smart Metering Systems at Energy Consumers' premises within Great Britain.

² Facilitate the efficient and transparent administration and implementation of this Code.

Modification Report Consultation responses

Summary of responses

The one respondent, a Large Supplier, believes the modification should be approved. They believe this modification would better facilitate SEC Objective (a) as Meter manufacturers will be able to develop Large Gas Meters that are compliant with display requirements in the SMETS2 as well as the MID.

They also believe it would facilitate Objective (g) as the SEC will be aligned with the display requirements for Large Gas Meters in the MID, rather than each of the two obligations contradicting each other.
