Draft Proposals Report – October 2020

1. Purpose

This paper sets out the progress with all open Draft Proposals and our recommendations to the Change Sub-Committee (CSC) on how each should be taken forward.

2. Recommendations

This table lists our recommendations for each Draft Proposal.

Full details of each Draft Proposal can be found in the attached draft Modification Reports.

Draft Proposal	Update	Recommendations
DP096 'DNO Power Outage Alerts'	We are still examining the problem with the Proposer. The DCC has provided a technical paper outlining current performance and potential for enhancement. The DNOs are liaising with the DCC to assess the options and we expect an update in December.	<ul style="list-style-type: none"> AGREE further development is required to define and understand the issue
DP126 'Smart meter consumer data access and control'	We are still examining the problem with the Proposer. The Proposer is involved with a trial around random privacy sampling. Once this is complete we will liaise with the Proposer to move this forward.	<ul style="list-style-type: none"> AGREE further development is required to define and understand the issue
DP144 'Charging of Random Sample Privacy Assessments'	We are still examining the problem with the Proposer.	<ul style="list-style-type: none"> AGREE further development is required to define and understand the issue
