Draft Proposals Report – November 2020

1. Purpose

This paper sets out the progress with all open Draft Proposals and our recommendations to the Change Sub-Committee (CSC) on how each should be taken forward.

2. Recommendations

This table lists our recommendations for each Draft Proposal.

Full details of each Draft Proposal can be found in the attached draft Modification Reports.

| Draft Proposal | Update | Recommendations |
|--|--|---|
| DP096 'DNO Power Outage Alerts' | We are still examining the problem with the Proposer. The DCC has provided a technical paper outlining current performance and potential for enhancement. The Network Parties are liaising with the DCC to assess the options and we expect an update in December. | <ul style="list-style-type: none"> AGREE further development is required to define and understand the issue |
| DP126 'Smart meter consumer data access and control' | We are still examining the problem with the Proposer. The Proposer is involved with a trial around random privacy sampling. Once this is complete, we will liaise with the Proposer to move this forward. | <ul style="list-style-type: none"> AGREE further development is required to define and understand the issue |

| Draft Proposal | Update | Recommendations |
|---|---|--|
| DP144 'Charging of Random Sample Privacy Assessments' | We believe this is now ready to be converted to a Modification Proposal. | <ul style="list-style-type: none"> • AGREE the issue and the impact it is having is clearly defined and understood • AGREE this Draft Proposal should be converted to a Modification Proposal • RECOMMEND to the Panel that the Modification Proposal should proceed to the Refinement Process |
| DP145 'Align SEC Documentation with DCC Solution for SR8.3 Decommission Device' | We believe this is now ready to be converted to a Modification Proposal. | <ul style="list-style-type: none"> • AGREE the issue and the impact it is having is clearly defined and understood • AGREE this Draft Proposal should be converted to a Modification Proposal • RECOMMEND to the Panel that the Modification Proposal should proceed to the Refinement Process |
| DP146 'SM WAN Coverage Date' | We are still examining the problem with the Proposer. We are liaising with BEIS and the TABASC to ensure the impacts on Suppliers and the DCC are fully understood. | <ul style="list-style-type: none"> • AGREE further development is required to define and understand the issue |
