TABASC59/04	DCC to identify how many Users use the SMKI Full extract and the frequency of use, and to advise whether the DCC has carried out any optimisation on the SMKI full extract, as this should not take 24 hours for the DCC to produce.	DCC	05/11/2020	06/05/2021	The DCC advised it has reviewed this with CGI and found that there was a design defect in the DSP solution impacting the performance, which currently required 34 hours to produce the SMKI full extract. The DSP is still investigating the options on design enhancement and will provide an update at the TABASC 65 meeting.	OPEN
TABASC60/05	SECAS to ensure the solution for MP085 'Synchronisation of smart meter voltage measurement periods' is discussed at TSIRS for manufacturer input.	SECAS	03/12/2020	06/05/2021	SECAS has advised that MP085 has been split into two separate modification to address the issue relating to newly manufactured Devices (MP085A) and for Devices currently installed (MP085B). SECAS intends to return to TABASC 65 with an update on MP085A, in order to the proceed to Refinement Consultation.	OPEN
TABASC60/06	SECAS to consider whether in the business case for MP102B 'Power Outage Alerts triggered by an OTA firmware upgrade – enduring solution', a process of validation can be used before an engineer is sent to site to confirm whether the site does or doesn't have an energy supply.	SECAS	03/12/2020	01/04/2021	SECAS will provide an update under agenda item 6.	OPEN
TABASC61/01	SECAS to undertake further investigation and work on the Export Guidance Document and hold another Workshop to discuss outstanding queries.	SECAS	07/01/2021	01/04/2021	SECAS is undertaking the Export Guidance Workshop on 29 March 2021, and will provide an update on the outcomes under agenda item 4.	OPEN
TABASC62/02	SECAS to undertake a gap analysis and return to the TABASC with a view of all the governance mechanisms for all routes of changes to Smart Metering and highlight any areas that are not covered.	SECAS	04/02/2021	06/05/2021	SECAS is currently undertaking a gap analysis and will provide an update to the TABASC once this piece of work is completed.	OPEN
TABASC62/04	SECAS to seek advice from EUA and BEAMA on the impact of not having GBCS v3.3.	SECAS	04/02/2021	03/06/2021	SECAS has received advice from EUA and has asked BEAMA to convene a meeting to discuss MP143. Secas is also looking to discuss this with TSIRS at its next available meeting. Following this, SECAS will issue a MP143 Refinement Consultation and present its findings to the TABASC.	OPEN
