Technical Architecture and Business Architecture Sub-Committee (TABASC) Meeting 65X Headlines on 20 May 2021

The TABASC did not approve any minutes at this meeting.

The following item was discussed:

- The DCC provided the TABASC with an overview of the Network Evolution Data Service Provider (DSP) Business Requirements, more specifically, The TABASC discussed the Proposed High Level New Requirements and provided feedback on each. The DCC noted that the Business Requirements Document will be provided for review to members prior to the TABASC 66 meeting. The DCC will take the TABASC's feedback away for further consideration and will provide a further update at TABASC 66, followed by another at TABASC 66X.(TABASC_65X_2005_01).
