TABASC59/04	DCC to identify how many Users use the SMKI Full extract and the frequency of use, and to advise whether the DCC has carried out any optimisation on the SMKI full extract, as this should not take 24 hours for the DCC to produce.	DCC	05/11/2020	01/07/2021	The DCC advised it has reviewed this with CGI and found that there was a design defect in the DSP solution impacting the performance, which currently required 34 hours to produce the SMKI full extract. The DSP is still investigating the options on design enhancement and will provide an update at the TABASC 67 meeting.	OPEN
TABASC60/05	SECAS to ensure the solution for MP085 'Synchronisation of smart meter voltage measurement periods' is discussed at TSIRS for manufacturer input.	SECAS	03/12/2020	01/07/2021	SECAS has advised that MP085 has been split into two separate modification to address the issue relating to newly manufactured Devices (MP085A) and for Devices currently installed (MP085B). SECAS intends to return to TABASC 67 with the revised version of the legal text, in order to proceed to Refinement Consultation.	OPEN
TABASC60/06	SECAS to consider whether in the business case for MP102B 'Power Outage Alerts triggered by an OTA firmware upgrade – enduring solution', a process of validation can be used before an engineer is sent to site to confirm whether the site does or doesn't have an energy supply.	SECAS	03/12/2020	01/07/2021	SECAS is holding a meeting with the proposer of MP102B and will provide an update at a future TABASC meeting.	OPEN
TABASC62/02	SECAS to undertake a gap analysis and return to the TABASC with a view of all the governance mechanisms for all routes of changes to Smart Metering and highlight any areas that are not covered.	SECAS	04/02/2021	01/07/2021	SECAS is currently undertaking a gap analysis and will provide an update to the TABASC once this piece of work is complete.	OPEN
TABASC62/04	SECAS to seek advice from EUA and BEAMA on the impact of not having GBCS v3.3.	SECAS	04/02/2021	01/07/2021	SECAS has received advice from EUA. On 29 March 2021, the Proposer stated that they have decided to withdraw this Modification Proposal. On 7 April 2021, Terry Jefferson of the Energy and Utilities Alliance (EUA) adopted MP143.and has asked BEAMA to convene a meeting to discuss it. SECAS is also looking to discuss this with TSIRS at its next available meeting.	OPEN
TABASC65/01	SECAS to share the updated business requirements for MP125 with TABASC Members ex committee.	SECAS	06/05/2021	03/06/2021	The updated business requirements for MP125 have been provided under paper reference TABASC_66_0306_01 - ACTION TABASC 6501 - MP125 Business Requirements.	OPEN
TABASC65X/01	The TABASC to share any additional feedback on the Draft DSP Business Requirements to the DCC via SECAS.	TABASC	20/05/2021	03/06/2021	SECAS has not yet received any additional feedback from TABASC Members on the Draft DSP Business Requirements.	OPEN
