MP157 ‘Removal of DUIS v1.1 and v2.0’ Modification Report Consultation responses

About this document

This document contains the full non-confidential collated responses received to the MP157 Modification Report Consultation.

Summary of responses

Question 1: Do you believe that MP157 should be approved?

Question 1				
Respondent	Category	Response	Rationale	SECAS Response
Centrica	Large Supplier	Approve	Using V3	
Western Power Distribution	Electricity Network Party	Approve	We agree that this modification addresses a valid issue that has been raised and better facilitates SEC objective (a) & (g) as per the Modification Report.	

Question 2: Please provide any further comments you may have

Question 2			
Respondent	Category	Comments	SECAS Response
Centrica	Large Supplier	No further comments	
Western Power Distribution	Electricity Network Party	<p>We note that SECAS have advised there will be 12 month notice before a DUIS version is end dated. However we note that there is no reference in the Legal Text. We note that SECAS technical expert stated that in the event of a user trying to use a version of DUIS that had passed its maintenance end date an error message would be returned, we cannot see details confirming this or what the error message would be within the Legal Text.</p> <p>We note the end date is the 26th November as agreed under SECMP080 however we note that the November 2021 release is targeted for the 4th November this will mean a period from the 4th-26th where The DCC will have to support 5 versions of DUIS. We don't believe that this was the intent as any changes made within this period will result in additional cost and resource due to the number of supported versions and wanted to highlight this so that going forward end dates can be aligned with release dates.</p>	<p>SECAS has checked this with the Proposer, and have noted the guidance for informing industry about DUIS versions being selected for removal will be advised 12 months in advance about said removal.</p> <p>For the purposes of DUIS v1.1 and v2.0, we would not expect an error message to be sent, due to Users having confirmed to be moved off of these versions by then.</p> <p>The DCC has confirmed industry has migrated off of these older versions, so it is not expected that an error message will be returned for these specific versions.</p> <p>We agree it was not the intent for versions 1.1 and 2.0 to be mis-aligned with the November 2021 SEC Release date. We agree that in future any end-dates should be aligned to SEC Releases wherever possible.</p>
