Views against the General SEC Objectives

Objective (f)

The Change Board believed that MP173 will better facilitate SEC Objective (f) by clarifying the provisions for the use of a Recovery Private Key as well as updating references to several industry standards that have been superseded or discontinued.

Objective (g)

The Change Board believed that MP173 will better facilitate SEC Objective (g) by ensuring the SEC is maintained in line with the Smart Metering Key Infrastructure (SMKI) Policy Management Authority's (PMA's) review of the SMKI and Data Communications Company (DCC) Key Infrastructure (DCCKI) Document Sets. This will be achieved by making a number of typographical, cosmetic and alignment changes the documents, as well as several industry standards that have been superseded or discontinued.

Change Board discussions

The Change Board had no further comments on the Modification Proposal.
