# MP191 ‘Extending CHTS v1.0 & v1.1 IVP and MVP end dates’

## Conclusions Report – version 1.0

### About this document

---

This document summarises the responses received to the Modification Report Consultation and the decision of the Change Board regarding approval or rejection of this modification.

### Summary of conclusions

---

#### Change Board

The Change Board voted to **approve** MP191. It believed the modification better facilitated SEC Objective (a) <sup>1</sup>.

#### Modification Report Consultation

SECAS received three responses to the Modification Report Consultation. They all believed that the modification should be approved. They considered the modification better facilitated SEC Objective (a).

---

<sup>1</sup> To facilitate the efficient provision, installation, and operation, as well as interoperability, of Smart Metering Systems at Energy Consumers' premises within Great Britain.

## Modification Report Consultation responses

### Summary of responses

All three respondents believed the modification should be approved. One respondent noted the modification makes sense and facilitates the efficient installation of smart metering systems. This is considering the volumes of Communications Hubs currently held by Suppliers, and the issues associated with the installation of GB Companion Specification (GBCS) v3.2 Communications Hubs.

Another respondent advised that it is sensible that energy suppliers have longer to install required Communications Hub stock, to prevent wastage and unnecessary cost.

## Change Board vote

### Change Board vote

The Change Board voted to **approve** MP191 under Self-Governance.

The vote breakdown is summarised below:

Change Board vote				
Party Category	Approve	Reject	Abstain	Outcome
Large Suppliers	6	0	0	Approve
Small Suppliers	2	0	0	Approve
Network Parties	2	0	0	Approve
Other SEC Parties	3	0	0	Approve
Consumer Representative	1	0	0	Approve
Overall outcome:				<b>APPROVE</b>

### Views against the General SEC Objectives

#### Objective (a)

The Change Board believed that MP191 will better facilitate SEC Objective (a) as it will prevent Communications Hubs being scrapped and will help to better facilitate the efficient provision and installation of smart metering systems.

### Change Board discussions

The Change Board had no further comments on the Modification Proposal.
