

MP182 ‘Improving Transparency of Election Results’

Business requirements – version 0.1

About this document

This document contains the business requirements that support the solution(s) for this Modification Proposal. It sets out the requirements along with any assumptions and considerations. The DCC will use this information to provide an assessment of the requirements that help shape the complete solution.

1. Business requirements

This section contains the functional business requirements. Based on these requirements a full solution will be developed.

Business Requirements	
Ref.	Requirement
1	All elections under the Smart Energy Code (SEC) shall have the result published, detailing the number of votes received by each candidate.

2. Considerations and assumptions

This section contains the considerations and assumptions for each business requirement.

2.1 General

This solution will be applied to all elections that take place under the SEC, covering all Party categories at the Panel and all Sub-Committees.

2.2 Requirement 1: All elections under the SEC shall have the result published, detailing the number of votes received by each candidate.

The current rules within the SEC require the Smart Energy Code Administrator and Secretariat (SECAS) to publish the identity of the person who has been elected as soon as reasonably practicable.

3. Glossary

This table lists all the acronyms used in this document and the full term they are an abbreviation for.

Glossary	
Acronym	Full term
DCC	Data Communications Company
SEC	Smart Energy Code
SECAS	Smart Energy Code Administrator and Secretariat
