### Summary

This modification seeks to streamline the process for progressing a Fast Track Modification Proposal through the SEC Modifications Process, by aligning the process to that used under other energy codes.

### Working Group View

- The initial **unanimous** view of the Working Group (WG) is that SECMP0051 should be **approved**.

### Impacts

- There are no impacts on SEC Parties identified
- There are no impacts on Data Communications Company (DCC) Central Systems and/or Party interfacing systems

### Response Deadline

- This consultation closes at 5pm on **14<sup>th</sup> June 2018**.

## About this Document

This is the Working Group Consultation (WGC) for SECMP0051. This document provides a high-level summary of the issue, solution(s), impacts and costs, implementation date and WG's views on the Modification Proposal;

This document has four attachments:

- Attachment A contains the Draft Modification Report (DMR) which provides a detailed explanation of the issue, solution, impacts, costs, implementation as well as the full WG discussions and conclusions;
- Attachment B contains the draft legal text changes to support this modification;
- Attachment C contains the responses to the Section D Consultation; and
- Attachment D contains the WGC response form.

As part of this consultation SEC Parties will be asked to provide their views on SECMP0051. The information provided will help us to better understand the benefits and drawbacks of the modification, shape the solution and assist the Panel, the Change Board and/or the Authority in their determination.

## Summary of SECMP0051

### What is the issue?

The Fast Track Modification process is used to progress self-evident changes to the SEC in an expedited manner. The recent SEC Section D Review has identified that this process under the SEC is not as efficient as the equivalent process under other energy codes, and that the SEC process should be aligned with the other codes.

### What is the Proposed Solution?

This modification proposes to make changes to the Fast Track Modification process under SEC Section D to streamline the process and align it with the equivalent process under other energy codes.

### Impacts – Proposed Solution

#### Party

There are no impacts on SEC Parties identified.

#### System

There are no impacts on DCC Central Systems or Party interfacing systems identified.

### Implementation Costs

The total estimated implementation cost to deliver SECMP0051 is approximately £1,200. This total cost consists solely of SEC Administration effort.

### Implementation Date

The Working Group recommends an implementation date of:

- **1<sup>st</sup> November 2018**, if a decision to approve is made by 28<sup>th</sup> September 2018.

### Working Group's initial views

The Working Group initially believe **unanimously** that SECMP0051 better facilitates the SEC Objectives. The WG therefore believe that this Modification Proposal should be **approved**.
