About this Document

This is the Modification Report Consultation (MRC) for SECMP0051. This document provides a high-level summary of the issue, solution, impacts and costs, implementation date, Working Group views and Panel views on the Modification Proposal;

This document has four attachments:

- Attachment A contains the Final Modification Report (FMR) which provides a detailed explanation of the issue, solution, impacts, costs, implementation as well as the full Working Group and Panel discussions and conclusions;
- Attachment B contains the draft legal text changes to support this modification;
- Attachment C contains the full Working Group Consultation (WGC) responses; and
- Attachment D contains the MRC response form.

As part of this consultation SEC Parties will be asked to provide their views on SECMP0051. The information provided will help us to better understand the benefits and drawbacks of the modification and assist the Panel, the Change Board in their determination.

Summary of SECMP0051

What is the issue?

The Fast-Track Modification process is used to progress self-evident changes to the SEC in an expedited manner. The recent SEC Section D Review has identified that this process under the SEC is not as efficient as the equivalent process under other energy codes, and that the SEC process should be aligned with the other codes.

What is the Proposed Solution?

This modification proposes to make changes to the Fast-Track Modification process under SEC Section D to streamline the process and align it with the equivalent process under other energy codes.

Impacts – Proposed Solution

Party

There are no impacts on SEC Parties identified.

System

There are no impacts on DCC Central Systems or Party interfacing systems identified.

Implementation Costs

The total estimated implementation cost to deliver SECMP0051 is approximately **£1,200**. This total cost consists of SEC Administration effort.

Implementation Date

The Panel agreed an implementation date of:

- **1st November 2018**, if a decision to approve is made by 28th September 2018.

Working Group view

The Working Group believe **unanimously** that SECMP0051 better facilitates the SEC Objectives. The Working Group therefore believe that this Modification Proposal should be **approved**.
